Series A — 100 Businesses That Will Not Grow in 2026

Format: Header (bold) / Body / Object

Day 1 (1–5)

- **Businesses with sales reps but no CCTV camera.**

If you have staff but no CCTV, theft, errors, and accountability issues will quietly drain profits. **Object:** CCTV camera

- **Businesses that still record sales on paper.**

Manual records hide trends and invite errors, so decisions are slow and wrong. **Object:** Paper ledger

- **Businesses without daily cash reconciliation.**

Money leaks go unnoticed when closing isn't verified every day. **Object:** Cash box

- **Businesses with no customer follow-up process.**

If you don’t re-engage buyers, your competitors will. **Object:** Unanswered message

- **Businesses running blind without analytics.**

Modern tools surface real-time sales insights—platforms like SellSquare. Without them, you’re steering blind. **Object:** Analytics chart

Day 2 (6–10)

- **Businesses with untracked inventory.**

Overstock and stockouts kill cash flow and customer trust. **Object:** Warehouse boxes

- **Businesses that price by “feeling.”**

Guesswork pricing erodes margin and positioning. **Object:** Price tag

- **Businesses with no employee performance tracking.**

You can’t improve what you don’t measure. **Object:** Scoreboard

- **Businesses that ignore online reviews.**

Silence in public feedback shrinks demand. **Object:** 1-star review

- **Businesses that never see real performance data.**

Affordable analytics software exists; a tool like SellSquare can show what’s working. Without it, opportunities stay hidden. **Object:** Dashboard

Day 3 (11–15)

- **Businesses that don’t track best-selling items.**

You’ll miss fast-moving products that should be scaled. **Object:** Top-seller badge

- **Businesses with no monthly financial summary.**

If you can’t see the month, you can’t steer it. **Object:** Monthly report

- **Businesses that mix personal and business funds.**

Blended money hides real profitability. **Object:** Mixed wallet

- **Businesses with slow checkout.**

Long queues reduce repeat customers. **Object:** Checkout line

- **Businesses with no insight dashboard.**

There are simple systems (e.g., SellSquare) that spotlight leaks fast. No system, no early warnings. **Object:** Trend line

Day 4 (16–20)

- **Businesses that don’t track expenses.**

Unseen costs silently crush margins. **Object:** Receipt pile

- **Businesses with no staff sales training.**

Untrained staff leave money on the table. **Object:** Training board

- **Businesses that never test new offers.**

No experimentation means no growth. **Object:** A/B test

- **Businesses that don’t capture customer contacts.**

You can’t market to people you can’t reach. **Object:** Contact list

- **Businesses operating without KPI visibility.**

Data tools like SellSquare turn effort into measurable progress. Skip them and you measure nothing. **Object:** KPI gauge

Day 5 (21–25)

- **Businesses that ignore slow-moving stock.**

Dead stock locks cash and space. **Object:** Dusty shelf

- **Businesses with no sales targets.**

If there’s no goal, there’s no growth. **Object:** Target icon

- **Businesses that don’t know customer lifetime value.**

You can’t invest wisely without this metric. **Object:** Lifetime value chart

- **Businesses that discount without strategy.**

Random discounts train customers to wait. **Object:** Discount tag

- **Businesses guessing margins without analytics.**

Analytics platforms like SellSquare protect margin decisions. Without that view, discounts backfire. **Object:** Profit chart

Day 6 (26–30)

- **Businesses with no SOPs.**

Inconsistency kills reputation and scale. **Object:** Checklist

- **Businesses that don’t monitor supplier performance.**

Late or low-quality supply breaks sales. **Object:** Supplier icon

- **Businesses that don’t segment customers.**

One-size marketing rarely converts. **Object:** Segmented circles

- **Businesses with no reorder alerts.**

Stockouts lose customers to competitors. **Object:** Low-stock alert

- **Businesses reordering without data signals.**

Inventory analytics tools like SellSquare tell you what to reorder. Without them, stockouts and overstock win. **Object:** Inventory chart

Day 7 (31–35)

- **Businesses that never review pricing competitiveness.**

You'll drift out of the market. **Object:** Market scale

- **Businesses that don't track marketing ROI.**

You keep funding what doesn't work. **Object:** ROI calculator

- **Businesses that ignore sales by staff.**

You can't coach without data. **Object:** Staff ranking

- **Businesses that don't review weekly performance.**

Slow response = slow growth. **Object:** Weekly report

- **Businesses reviewing performance without metrics.**

Weekly performance is clearer with tools like SellSquare. Without visibility, reviews are guesswork. **Object:** Weekly dashboard

Day 8 (36–40)

- **Businesses with no product bundling strategy.**

Bundles increase average order value. **Object:** Bundle box

- **Businesses that don't track refunds/returns.**

Refund trends reveal product problems. **Object:** Return box

- **Businesses without CRM follow-ups.**

Relationship gaps mean lost repeat sales. **Object:** CRM card

- **Businesses that ignore seasonality.**

You'll miss peak profit periods. **Object:** Seasonal calendar

- **Businesses missing seasonal trend intelligence.**

Seasonality tracking tools like SellSquare reveal demand cycles. Without them, you miss peaks. **Object:** Seasonal graph

Day 9 (41–45)

- **Businesses with no customer service playbook.**

Poor service cancels good marketing. **Object:** Help headset

- **Businesses that don’t track daily footfall.**

You can’t improve traffic without measuring it. **Object:** Footfall counter

- **Businesses that don’t benchmark competitors.**

You’ll be outpaced without knowing it. **Object:** Competitor chart

- **Businesses with no upsell/cross-sell strategy.**

You lose easy revenue per customer. **Object:** Upsell arrow

- **Businesses upselling without insight.**

Upsell opportunities appear in analytics tools like SellSquare. Without them, easy revenue slips away. **Object:** Lift chart

Day 10 (46–50)

- **Businesses that don’t track profit per product.**

High sales can still mean low profit. **Object:** Profit tag

- **Businesses without stock shrinkage checks.**

Hidden loss = hidden decline. **Object:** Shrink icon

- **Businesses that ignore payment method trends.**

Customers abandon when they can’t pay easily. **Object:** Payment icons

- **Businesses without service delivery tracking.**

Late delivery damages trust. **Object:** Delivery timer

- **Businesses scaling products without profit data.**

Profit vs. popularity is obvious in tools like SellSquare. Without that lens, you scale the wrong items. **Object:** Profit dashboard

Day 11 (51–55)

- **Businesses that don’t monitor staff attendance.**

Untracked time kills productivity. **Object:** Attendance log

- **Businesses without sales forecasting.**

You can’t plan inventory or cash flow. **Object:** Forecast chart

- **Businesses with no customer feedback loop.**

You'll miss what buyers actually want. **Object:** Feedback bubble

- **Businesses that ignore abandoned inquiries.**

Warm leads go cold fast. **Object:** Unanswered call

- **Businesses losing conversions without tracking.**

Conversion drop-offs are visible in tools like SellSquare. Without them, you can't fix the funnel. **Object:** Funnel chart

Day 12 (56–60)

- **Businesses that don't track stock aging.**

Old stock eats capital. **Object:** Aging stock

- **Businesses without structured promotions.**

Random promos weaken the brand. **Object:** Promo megaphone

- **Businesses with no digital presence.**

In 2026, invisibility is decline. **Object:** Offline sign

- **Businesses that don't monitor cash flow weekly.**

You can't fix a leak you don't see. **Object:** Cash flow graph

- **Businesses unaware of cash-risk signals.**

Cash-risk signals show up early in tools like SellSquare. Without them, problems arrive too late. **Object:** Alert bell

Day 13 (61–65)

- **Businesses that don't track basket size.**

You can't grow average order value blindly. **Object:** Shopping basket

- **Businesses with no customer loyalty strategy.**

New customers cost more than repeat. **Object:** Loyalty card

- **Businesses that ignore dead hours.**

You keep paying for unproductive time. **Object:** Empty store

- **Businesses that don't audit expenses.**

Small leaks become big losses. **Object:** Expense audit

- **Businesses bleeding costs without visibility.**

Cost hotspots are exposed by tools like SellSquare. Without them, waste hides in plain sight. **Object:** Cost dashboard

Day 14 (66–70)

- **Businesses that don’t plan inventory for holidays.**

You’ll miss peak revenue moments. **Object:** Holiday calendar

- **Businesses without pricing tiers.**

You lose different buyer segments. **Object:** Tiered price

- **Businesses that don’t track supplier cost changes.**

Margin shrink goes unnoticed. **Object:** Cost up arrow

- **Businesses with no data backup.**

One loss can reset your progress. **Object:** Backup cloud

- **Businesses letting margins erode unnoticed.**

Margin erosion is flagged by tools like SellSquare. Without them, you notice only after losses. **Object:** Margin chart

Day 15 (71–75)

- **Businesses that don’t use POS data.**

You’re ignoring your most valuable insights. **Object:** POS terminal

- **Businesses with no clear offer positioning.**

Confused customers don’t buy. **Object:** Blurry sign

- **Businesses that don’t track lead sources.**

You can’t scale what you can’t identify. **Object:** Source map

- **Businesses with no follow-up after purchase.**

You miss referrals and repeat sales. **Object:** Follow-up message

- **Businesses unsure where customers come from.**

Customer-source clarity comes from tools like SellSquare. Without it, you can’t scale winning channels. **Object:** Source chart

Day 16 (76–80)

- **Businesses that ignore staff incentive structures.**

Motivation impacts revenue. **Object:** Incentive badge

- **Businesses without a sales pipeline view.**

You can’t predict next month. **Object:** Pipeline board

- **Businesses that don’t track conversion rates.**

You may be leaking sales daily. **Object:** Conversion funnel

- **Businesses with no clear return policy.**

Confusion creates distrust. **Object:** Policy sheet

- **Businesses leaking revenue in the funnel.**

Leakage in the sales funnel shows in tools like SellSquare. Without them, you keep losing quietly. **Object:** Leak icon

Day 17 (81–85)

- **Businesses that don’t track delivery costs.**

Hidden costs erase profit. **Object:** Delivery cost

- **Businesses without budget planning.**

Growth without a plan becomes chaos. **Object:** Budget sheet

- **Businesses that don’t track staff training ROI.**

You can’t tell if training works. **Object:** Training ROI

- **Businesses that ignore top-10 customers.**

Losing one big buyer hurts most. **Object:** VIP badge

- **Businesses blind to VIP churn risk.**

Top-customer risk is tracked in tools like SellSquare. Without that, churn blindsides you. **Object:** VIP chart

Day 18 (86–90)

- **Businesses that don’t track product returns by supplier.**

You can’t fix quality issues without data. **Object:** Supplier return

- **Businesses with no marketing calendar.**

Missed timing = missed sales. **Object:** Calendar

- **Businesses that don’t benchmark average order value.**

You can’t improve what you don’t track. **Object:** AOV tag

- **Businesses with no clear cash handling policy.**

Inconsistency leads to loss. **Object:** Cash policy

- **Businesses stuck on flat basket values.**

AOV trends are uncovered in tools like SellSquare. Without them, basket growth stalls. **Object:** AOV chart

Day 19 (91–95)

- **Businesses without customer segmentation.**

Mass messaging wastes money. **Object:** Segment circles

- **Businesses that ignore staff sales coaching.**

No coaching = no improvement. **Object:** Coaching board

- **Businesses that don't track product margins.**

You'll sell more and earn less. **Object:** Margin badge

- **Businesses without monthly review meetings.**

Teams drift without review. **Object:** Meeting table

- **Businesses holding reviews without data.**

Review actions get prioritized in tools like SellSquare. Without them, meetings change nothing. **Object:** Action chart

Day 20 (96–100)

- **Businesses without standardized receipts.**

Disputes rise and trust falls. **Object:** Receipt

- **Businesses that ignore out-of-stock reports.**

You lose sales without noticing. **Object:** Out-of-stock sign

- **Businesses that don't track promotions by result.**

You repeat losses. **Object:** Promo report

- **Businesses with no plan for growth capital.**

Expansion stalls without funds. **Object:** Capital stack

- **Businesses trying to grow without analytics.**

Sustainable growth needs visibility from tools like SellSquare. Without that, progress is accidental. **Object:** Growth engine

---

Series B — 100 Businesses That Will Likely Make More Profits in 2026

Format: Header (bold) / Body / Object

Day 1 (1–5)

- **Businesses that track sales daily.**

Daily visibility means faster decisions and fewer surprises. **Object:** Daily dashboard

- **Businesses with clear cash reconciliation.**

Clean cash flow creates stability and trust. **Object:** Cash tally

- **Businesses that follow up every customer.**

Consistent follow-up grows repeat sales. **Object:** Follow-up message

- **Businesses that document SOPs.**

Consistency improves speed and quality. **Object:** SOP checklist

- **Businesses that run on live analytics.**

Analytics tools like SellSquare make growth levers obvious and repeatable. **Object:** Analytics chart

Day 2 (6–10)

- **Businesses with inventory tracking.**

Controlled stock improves cash flow and service. **Object:** Inventory bins

- **Businesses that measure best-selling items.**

They scale what works and drop what doesn't. **Object:** Bestseller badge

- **Businesses that monitor profit per product.**

Profit-first decisions drive growth. **Object:** Profit tag

- **Businesses that use customer contacts for marketing.**

Owned audience = repeat revenue. **Object:** Contact list

- **Businesses that turn data into decisions.**

With tools like SellSquare, data-led decisions consistently beat intuition. **Object:** KPI dashboard

Day 3 (11–15)

- **Businesses that track expenses weekly.**

Expense control protects margin. **Object:** Expense chart

- **Businesses that use POS data to optimize.**

Sales patterns become strategy. **Object:** POS terminal

- **Businesses that manage staff performance.**

Coaching creates stronger sales teams. **Object:** Staff ranking

- **Businesses that monitor customer reviews.**

Feedback drives quick improvements. **Object:** Review stars

- **Businesses that scale what's profitable.**

Profit drivers stand out in tools like SellSquare, so you scale what pays. **Object:** Profit trend

Day 4 (16–20)

- **Businesses with smart pricing strategy.**

Smart pricing protects margins. **Object:** Price scale

- **Businesses that bundle products.**

Bundles raise average order value. **Object:** Bundle box

- **Businesses that run targeted promotions.**

Targeting reduces wasted spend. **Object:** Promo target

- **Businesses that know their top customers.**

VIP focus grows stable revenue. **Object:** VIP badge

- **Businesses that grow loyalty with insights.**

Loyalty patterns surface in tools like SellSquare, helping you keep VIPs longer. **Object:** Loyalty chart

Day 5 (21–25)

- **Businesses with supplier performance tracking.**

Reliable supply = reliable sales. **Object:** Supplier chart

- **Businesses with reorder alerts.**

No stockouts, no lost sales. **Object:** Reorder alert

- **Businesses that track refunds.**

They fix issues fast. **Object:** Return box

- **Businesses with a marketing calendar.**

Timely campaigns boost revenue. **Object:** Calendar

- **Businesses that time promotions with data.**

Tools like SellSquare reveal the best promo timing and offers. **Object:** Timing graph

Day 6 (26–30)

- **Businesses that track basket size.**

Bigger baskets = higher profits. **Object:** Shopping basket

- **Businesses that follow up after purchase.**

Post-sale care boosts referrals. **Object:** Thank-you message

- **Businesses with a loyalty program.**

Loyalty drives repeat sales. **Object:** Loyalty card

- **Businesses with a clear return policy.**

Trust increases conversions. **Object:** Policy sheet

- **Businesses that boost repeat revenue with analytics.**

Loyalty impact is measurable in tools like SellSquare, so repeat revenue rises. **Object:** Loyalty chart

Day 7 (31–35)

- **Businesses with strong CCTV and controls.**

Security protects profit. **Object:** CCTV camera

- **Businesses that monitor footfall.**

Traffic data powers growth. **Object:** Footfall counter

- **Businesses that track lead sources.**

They scale the best channels. **Object:** Source map

- **Businesses that use forecasting.**

Forecasting prevents waste and stockouts. **Object:** Forecast chart

- **Businesses that forecast smarter.**

Forecast accuracy improves with tools like SellSquare, reducing waste. **Object:** Forecast dashboard

Day 8 (36–40)

- **Businesses that analyze seasonality.**

They stock smart and sell more. **Object:** Seasonal calendar

- **Businesses with staff incentives.**

Motivated teams sell more. **Object:** Incentive badge

- **Businesses that track delivery times.**

Reliable delivery builds loyalty. **Object:** Delivery timer

- **Businesses that audit expenses.**

Waste gets removed quickly. **Object:** Expense audit

- **Businesses that cut waste with insight.**

Waste gets spotted early in tools like SellSquare, protecting margin. **Object:** Waste chart

Day 9 (41–45)

- **Businesses that benchmark competitors.**

They stay ahead of market shifts. **Object:** Competitor chart

- **Businesses that track conversion rates.**

They fix drop-offs fast. **Object:** Funnel

- **Businesses that track AOV.**

They grow revenue per customer. **Object:** AOV tag

- **Businesses with strong CRM.**

Relationships become revenue. **Object:** CRM card

- **Businesses that lift conversions with data.**

Conversion wins are easier to repeat with tools like SellSquare. **Object:** Conversion chart

Day 10 (46–50)

- **Businesses that optimize staffing schedules.**

Right staff at right time. **Object:** Schedule grid

- **Businesses that track stock aging.**

Old stock is cleared before loss. **Object:** Aging stock

- **Businesses with digital presence.**

Visibility drives demand. **Object:** Website icon

- **Businesses with customer feedback loops.**

They build what buyers want. **Object:** Feedback bubble

- **Businesses that act fast on feedback.**

Customer feedback becomes action faster with tools like SellSquare. **Object:** Action chart

Day 11 (51–55)

- **Businesses that monitor staff attendance.**

Reliability drives performance. **Object:** Attendance log

- **Businesses that train sales teams.**

Better skills = better sales. **Object:** Training board

- **Businesses with clear cash handling policy.**

Consistency prevents loss. **Object:** Cash policy

- **Businesses that track marketing ROI.**

They invest only in what works. **Object:** ROI calculator

- **Businesses that spend marketing smarter.**

Marketing ROI is clearer with tools like SellSquare, so spend works harder. **Object:** ROI chart

Day 12 (56–60)

- **Businesses that use upsell/cross-sell.**

More value per transaction. **Object:** Upsell arrow

- **Businesses that manage suppliers well.**

Better cost and quality. **Object:** Supplier handshake

- **Businesses that track shrinkage.**

Loss prevention increases profit. **Object:** Shrink icon

- **Businesses with standardized receipts.**

Trust and clarity improve loyalty. **Object:** Receipt

- **Businesses that trace losses to root causes.**

Loss causes are traceable with tools like SellSquare, preventing repeat issues. **Object:** Cause chart

Day 13 (61–65)

- **Businesses with product margin tracking.**

They scale what truly pays. **Object:** Margin badge

- **Businesses with sales targets.**

Targets focus effort and execution. **Object:** Target icon

- **Businesses that review weekly performance.**

Quick adjustments protect growth. **Object:** Weekly report

- **Businesses with budget planning.**

Controlled growth reduces risk. **Object:** Budget sheet

- **Businesses that keep targets realistic and tracked.**

Targets align with reality when tracked in tools like SellSquare. **Object:** Target chart

Day 14 (66–70)

- **Businesses that track payment method trends.**

Easier payments increase conversion. **Object:** Payment icons

- **Businesses that track stockouts.**

They fix lost-sales moments quickly. **Object:** Stockout sign

- **Businesses with clear offer positioning.**

Clarity sells faster. **Object:** Clear sign

- **Businesses with cash-flow tracking.**

They spot trouble early. **Object:** Cash flow graph

- **Businesses that spot cash risks early.**

Cash surprises drop when monitored in tools like SellSquare. **Object:** Alert chart

Day 15 (71–75)

- **Businesses that monitor dead hours.**

They optimize staffing and costs. **Object:** Empty store

- **Businesses with a sales pipeline view.**

Predictable revenue growth. **Object:** Pipeline board

- **Businesses that track top customers.**

They protect key revenue. **Object:** VIP badge

- **Businesses with customer segmentation.**

Messaging converts better. **Object:** Segment circles

- **Businesses that segment customers with data.**

Segmentation performs better when powered by tools like SellSquare. **Object:** Segment chart

Day 16 (76–80)

- **Businesses that use data backups.**

No downtime from data loss. **Object:** Backup cloud

- **Businesses that optimize inventory turnover.**

Faster turnover = stronger cash flow. **Object:** Turnover arrows

- **Businesses that audit supplier costs.**

They protect margins. **Object:** Cost audit

- **Businesses with product bundles and offers.**

Higher AOV, higher profit. **Object:** Offer box

- **Businesses that improve inventory turnover with insight.**

Inventory turnover improves when tracked in tools like SellSquare. **Object:** Turnover chart

Day 17 (81–85)

- **Businesses with customer referral programs.**

Referrals lower acquisition cost. **Object:** Referral icon

- **Businesses with weekly team reviews.**

Teams improve faster. **Object:** Team meeting

- **Businesses that track staff sales by shift.**

They optimize top performers. **Object:** Shift chart

- **Businesses that test new offers.**

Testing finds new profit paths. **Object:** A/B test

- **Businesses that scale experiments with data.**

Experiment results are cleaner in tools like SellSquare, so you scale winners. **Object:** Experiment chart

Day 18 (86–90)

- **Businesses that track delivery cost per order.**

Cost control protects margin. **Object:** Delivery cost

- **Businesses that monitor customer service time.**

Faster service increases loyalty. **Object:** Service timer

- **Businesses that plan inventory for holidays.**

They maximize peak profits. **Object:** Holiday calendar

- **Businesses that track return reasons.**

They reduce future losses. **Object:** Return reasons

- **Businesses that reduce returns with insights.**

Return reduction is achievable when tracked in tools like SellSquare. **Object:** Return chart

Day 19 (91–95)

- **Businesses with consistent brand messaging.**

Trust grows repeat business. **Object:** Brand megaphone

- **Businesses with staff coaching programs.**

Coaching increases performance. **Object:** Coaching board

- **Businesses that track profit per staff.**

They deploy talent wisely. **Object:** Staff profit chart

- **Businesses with inventory reorder points.**

No lost sales, no excess stock. **Object:** Reorder point

- **Businesses that optimize staffing ROI with data.**

Staffing ROI is sharper when measured in tools like SellSquare. **Object:** Staff ROI chart

Day 20 (96–100)

- **Businesses that track promotions by result.**

They repeat what works. **Object:** Promo report

- **Businesses with clear growth capital plan.**

Funding supports expansion. **Object:** Capital stack

- **Businesses that track market trends.**

They adjust before competitors. **Object:** Trend arrow

- **Businesses that track churn.**

They fix issues before loss. **Object:** Churn chart

- **Businesses that build durable profit momentum.**

Long-term profit momentum builds with tools like SellSquare. **Object:** Growth engine

---

Canva AI Prompt (Template + Slides)

Create a modern, premium social media carousel for SellSquare aimed at business owners. Style: clean, high-contrast, bold typography, professional, minimal icons. Use a consistent 3-line layout per item slide:

- Large bold header, 2) smaller body text, 3) small object icon/illustration line.

Include brand colors (navy, white, accent orange) and space for logo on every slide. Slides needed:

- Slide 1: Title “100 Businesses That Will Not Grow in 2026” with subheading “Avoid these blind spots or risk stagnation. Build smarter with SellSquare.”
- Slide 2: CTA “Tag a business owner now!” plus short subtext.
- Slide 3–7: Five item slides in the 3-line format.

Add a footer area for “SellSquare” and a small handle. Keep icon placeholders (CCTV camera, ledger, chart, etc.) that can be swapped per slide. Ensure all slides are optimized for Instagram/TikTok carousel (1080×1350).
